

Thank you for all you do for ALL of us in the community.

Teresa

Hello my name is Ava.

Thank you for helping others stay healthy.

Ava V.

Thank you so much for being such a great nurse! You made getting my spinal not scary at all!

Colleen

Home Health Nurses:

As a leader I am humbled by your compassion and care you show your community daily! Each of you face your day with true heroism in these times. The past few months each of you has shown compassion for your patients and each other in ways I have never witnessed. I thank you all for what you do daily...giving so much of yourself to those that may have so little. Thank you for your dedication and service you provide.

Thank you for all you do!

Please know that you are seen, prayed for and appreciated so much!!!

Hillary H.

Thank you to the Radiology Technicians, especially Jenna for helping me get through the MRI and hip X-rays.

Jenna put herself in my position as a legally blind person and helped me after I was done with the X-rays and MRI.

Vickie M.

Thank you so much for your dedication and heroism portrayed during these hard and unpredictable times. Even though people are carelessly exposing themselves with COVID-19, your hard work and professionalism is greatly appreciated.

Thank you!

Diana A

Our father was recently discharged from your ICU unit after a close call. We wanted to thank everyone who helped us during his stay over the holiday weekend. We especially want to thank Dr. Gezon and the nurses down in the ER when we first brought him in for being so supportive as he struggled to breathe and was barely conscious as well as Dr. Cornell, Ann, Claire and Bekah, and the PCA Ally in the ICU unit who went the extra mile from treating his complicated medical issues and needs to helping him get cleaned up, walking him around in the middle of the night and bringing him a pudding so he'd feel more like a person again. Last but not least, the IR team pulled off a miracle. We drove in all the way from Grand Rapids, because, of all the hospitals we have visited in multiple states, we trust HH that much. Thank you.

The t.H Family

To the Holland Hospital team, thank you. Your work on the frontlines of Covid-19 is noticed and greatly appreciated. By risking your lives, you are saving tons of others. Thank you for being our saving graces during this pandemic and turning victims into survivors. Thank you for never giving up and always being there for your patients. To those other essential workers that wake up in the morning, either to assist or just take down people's names for appointments, your hard work is not overlooked and I thank you for that as well. We are living in rough times, but know that there are people all over inspired by your hard work, cheering you on from the sidelines. THANK YOU!

Dorcas A
